

SYNRAD Product Change Notice

PCN #: 002-2016
Date: 09/15/2016
Product P/N: FSTi60SAG; FSTi60SFG; FSTi60SWG; FSTi60KFG;
FSTi60KWG

Description of Change: Upgraded ti60 RF Components

Effective September 15th, 2016 the ti60 laser products will start to ship with an upgraded RF driver board, using the same overall circuit design but improved RF components.

The form and fit of the laser will not change, but customers might notice minor changes in the ti60 function:

- 1. DC power supply current may increase by up to 6%.
- 2. Rise time of the laser may decrease by up to 6%.
- 3. Overall output power may be higher.

Units manufactured with the upgraded RF driver board will be designated by the revision letter "G". For instance, the ti60 fan model number will go from FSTi60SFE to FSTi60SFG.
